

July 22, 2020

Dear Craig School Community,

Throughout the summer, in response to COVID-19, The Craig School has initiated and actively participated in mission-driven strategic planning to reopen The Craig School for on-campus learning that allows for flexibility, transparency, and prioritizes the health and safety of our community. The Craig School is currently preparing the physical campuses to support students in the fall of 2020. Our goal is to provide the best overall experience for the whole child while prioritizing the health and safety of all members of The Craig School community. We recognize the uncertainty you may be facing as you make plans for next year and we are doing our best to address questions and concerns.

The Craig School is committed to preserving each family as part of our school community through these very challenging times and remains committed to providing a rich educational experience for our students. To reopen and stay open safely will be a community-wide effort. All individuals who are on our campuses (parents, students, teachers, staff, etc.) have a responsibility to follow the guidelines and policies for a safe and healthy school environment. The following document provides answers to many of the questions you may have. As we prepare for reopening, we must be nimble to adjust our plans when new guidelines and laws on the local, state, and federal levels emerge. Check back often to this guide for updates to the [Frequently Asked Questions](#) section.

At the end of this plan you will see a community committee agreement for parents and students to acknowledge and sign and an employee return to work agreement. Please read through the plan and the frequently asked questions section as many questions and concerns are addressed in detail there. Working together, we can continue to provide an evidence-based curriculum that addresses the needs of the whole child.

Go Badgers!
Dr. Kara A. Loftin
Head of School
