Names of Guests Only Attending Dinner

For over 40 years, the Craig School has helped children who have not succeeded in traditional classrooms become successful learners. Learning difficulties need not to be a deterrent to any child's aspirations -- examples abound of people who have learned strategies to work around their differences and who have had great success as adults.

Our mission is to work with children with learning disabilities and help them acquire the skills they need to learn steadily throughout their lives. We accomplish this by providing a nurturing, supportive, and structured learning environment characterized by:

- Orton-Gillingham Methodology
- Multi-sensory Learning
- Whole-Child Development
- Organizational Structures and Support
- Parent-Teacher Partnerships

Founded in 1980, The Craig School is a college-preparatory independent school located on two campuses: a lower school (grades 2-8) in Mountain Lakes, New Jersey, and a high school (grades 9-12) in nearby Montville, New Jersey.
